• EXPERIENCE

Software Developer jr.

Own projects for UCR and self-taught (2020 - present).

More than 15 projects in which I put into practice the creation of web and mobile graphical interfaces for the presentation of static and dynamic information, using MVC and considering UX/UI standards and accessibility.
I also create REST APIs through N-layered infrastructure with connections to both SQL and NoSQL databases, considering topics such as scalability and security, using the SCRUM methodology. These projects can be found on my GitHub with extensive documentation.

- React, ReactNative, Angular, Javascript, Node, .Net, Java, Android, HTML, CSS, SQL, NoSQL, GIT.

Software Developer jr.

Administrative Controls system for OIJ Costa Rica (July-December, 2022).

Leading a team of 4 software developers for a university project in collaboration with the OIJ institution, overseeing the entire process from gathering requirements in meetings with stakeholders, documentation, analysis, design, and software development, using the RUP methodology.
- .Net, Angular, SQL Server.

Web development tutor/teacher.

University Community Work Workshop (January-March 2023).

2 introductory workshops on web development with 14 students.
Introductory workshop on FrontEnd technologies, including HTML, CSS, and JavaScript, through practical examples.
Introductory workshop on BackEnd technologies, including C#, .Net, MVC, OOP, EntityFramework, and SQL Server, focusing on creating and working with web APIs.

• KNOWLEDGE IN TECHNOLOGIES.

React	JavaScript	MSSQL	ReactNative
Angular	Node	MYSQL	HTML5
.Net	Java	MongoDB	CSS3
Bootstrap	C#	Git y GitHub	Json
SASS			

• EDUCATION

Universidad de Costa Rica,

Informática

Currently in the final year of my degree, seeking an internship opportunity, 2017 - 2023.

• CERTIFICATIONS AND COURSES.
